## EntreComp Framework – Entrepreneurial Competences in the Context of WBL

**EntreComp** □ **entrepreneurship as a transversal competence**, i.e. to be applied

- by citizens to all spheres of life from personal development, to actively participating in society;
- by job-seekers to (re)entering the job market as an employee or as a self-employed person;
- by (future) entrepreneurs to start up ventures (cultural, social or commercial);
- in formal education and training as well as in non-formal learning contexts

JRC SCIENCE FOR POLICY REPORT

## EntreComp: The Entrepreneurship Competence Framework

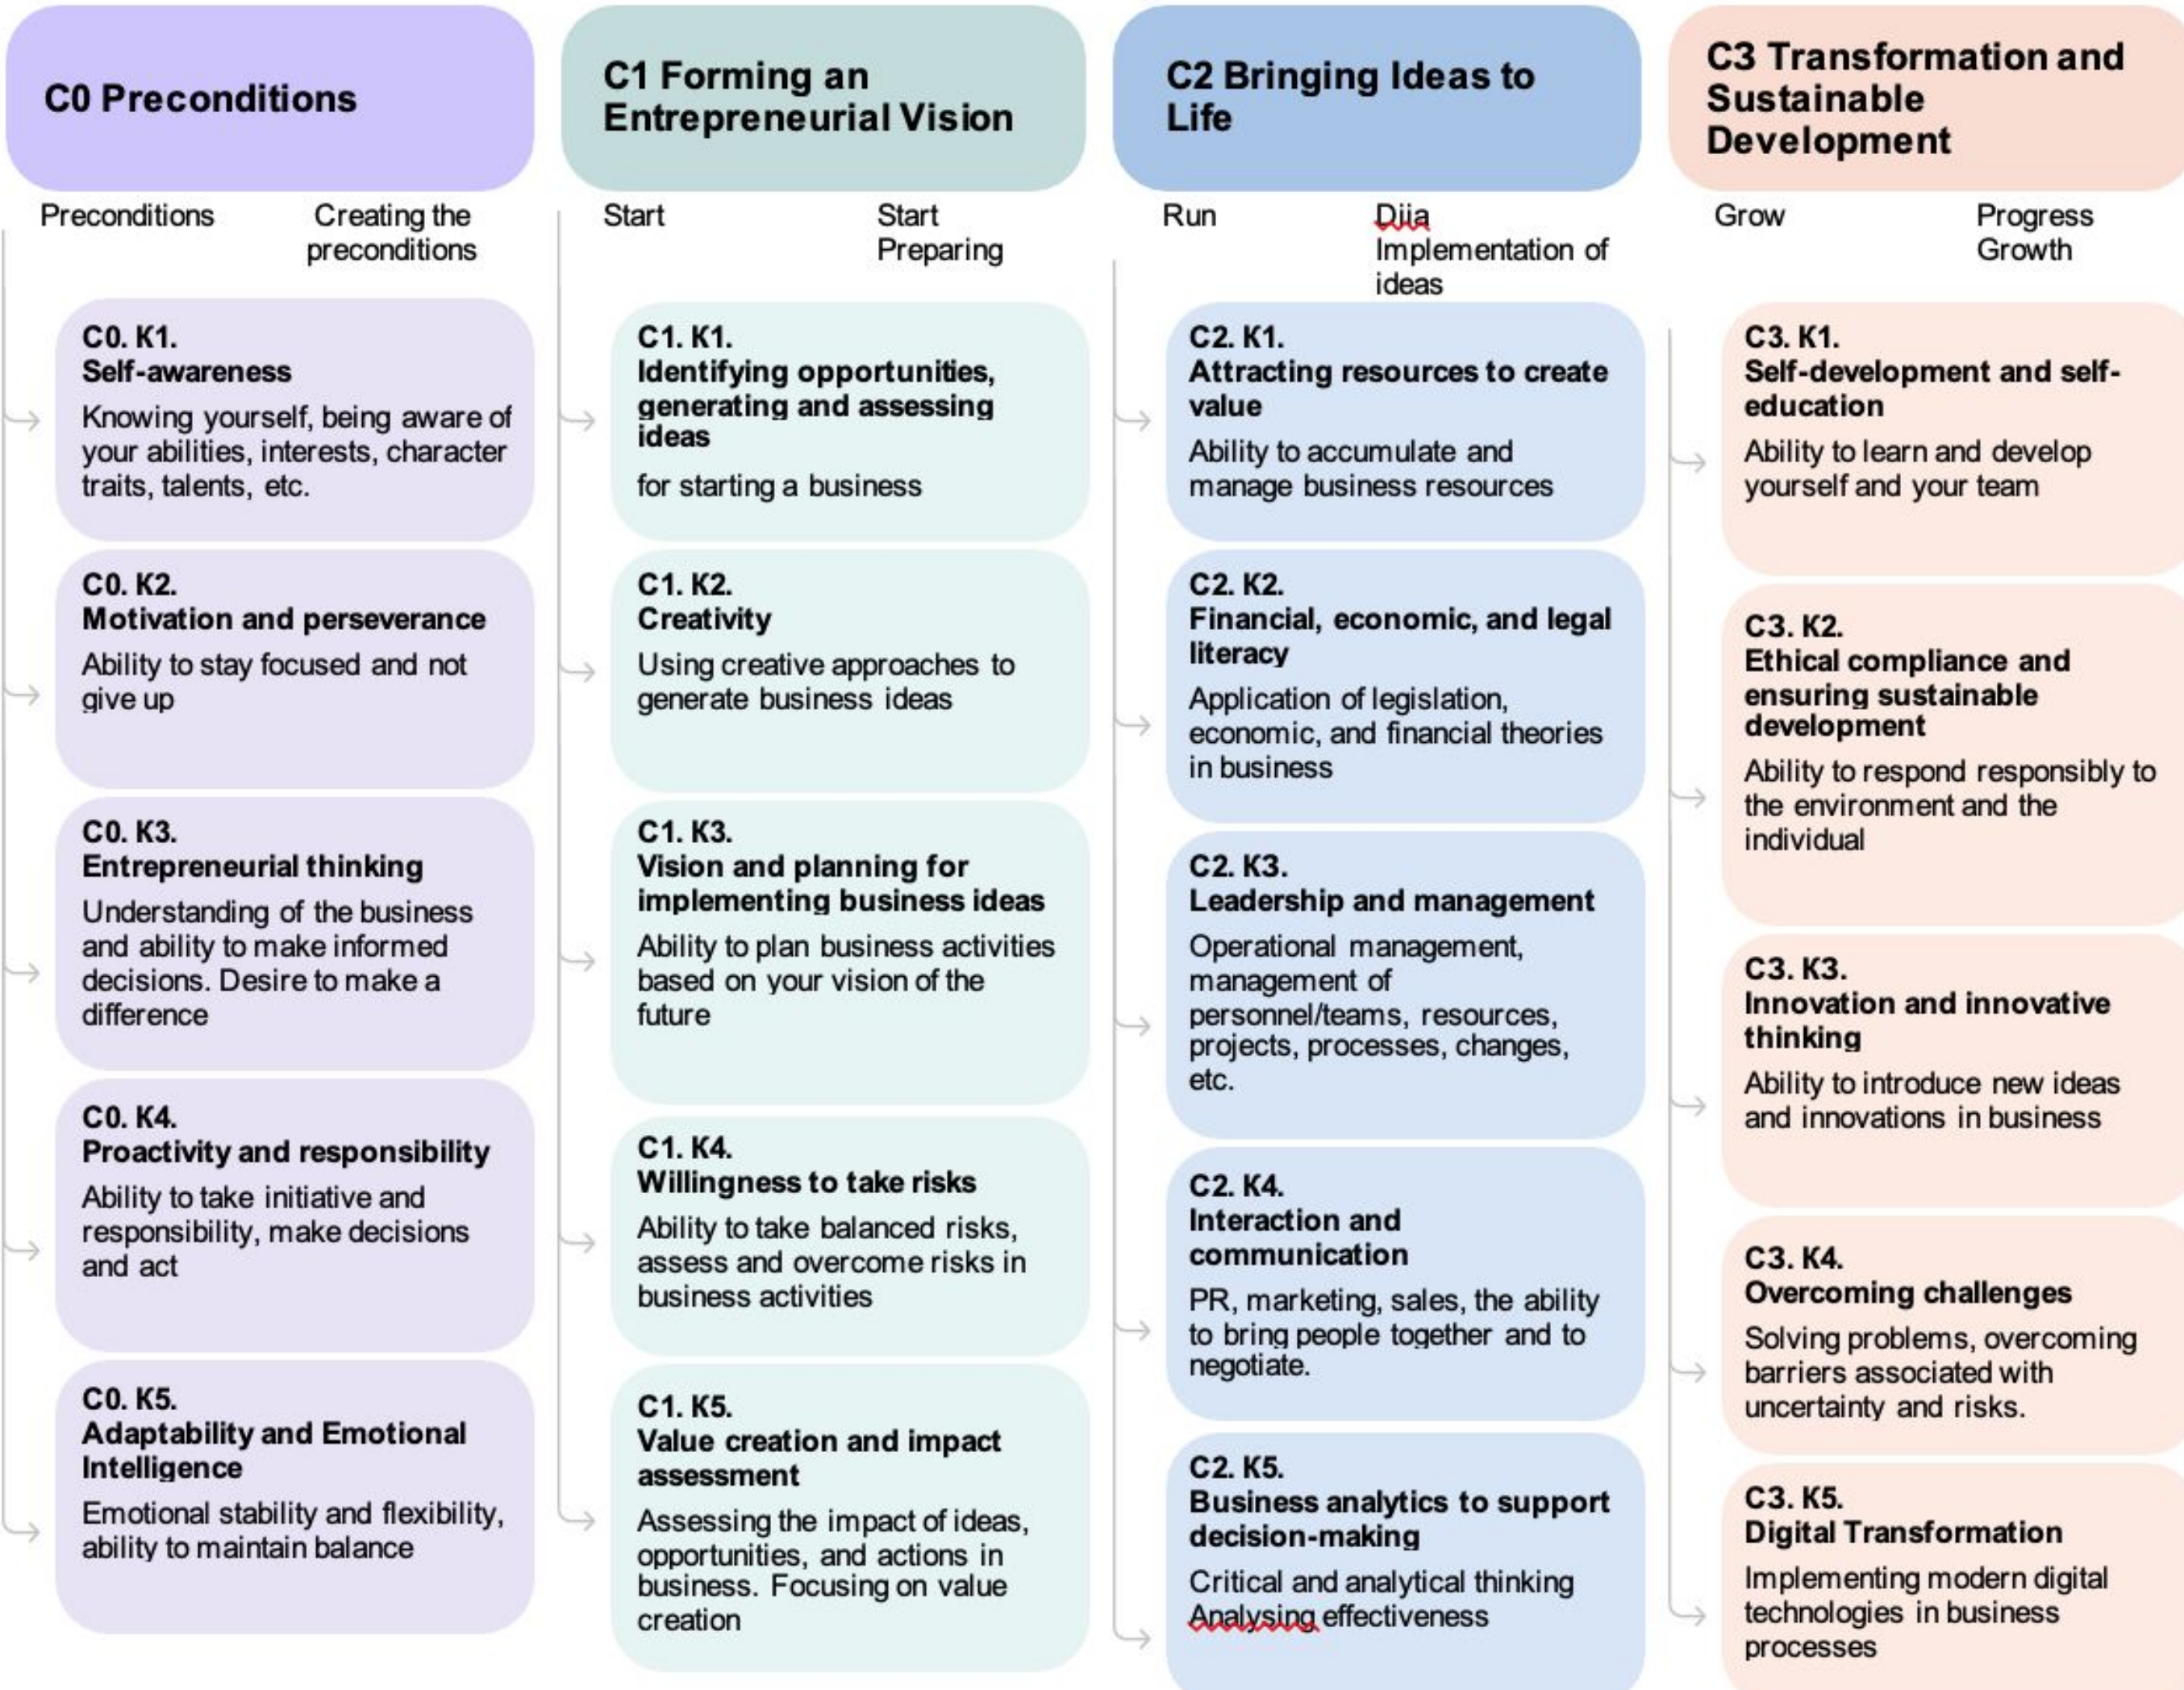

The Entrepreneurship Competence Framework, referred to as EntreComp, serves as a strategic tool to enhance the entrepreneurial capacity of Europe's citizens, youth, and organisations. The framework aims to establish a shared comprehension of entrepreneurship competence by delineating three competence areas, 15 components, and specifying learning outcomes and proficiency levels. This foundation forms the basis for current and forthcoming initiatives, fostering a comprehensive and cohesive approach to entrepreneurship development.
